

Date and time of Response	
---------------------------	--

What were you doing when you responded to the incident?

How did you collect information while in contact with the residents?

What physical tools did you use? (smartphones, pen and paper, etc)

What percentage of information that would likely go into a report did you feel you had forgotten? Why?

Were you with a partner?

How did you negotiate who did what during the incident?

How did you negotiate who did what during the writing of the incident report?

How would you rate the quality of the report you wrote?

What was the most annoying/difficult part(s) of the documentation process?

What was the easiest part(s) of the documentation process?

What is at least one thing that would make this process easier for you?
